Herkimer Industries Honors Mohawk Valley Resource Center for Refugees

Herkimer Industries (HI), the industrial and vocational division of the Herkimer ARC, honored the Mohawk Valley Resource Center for Refugees (MVRCR) on Weds., December 17 for supporting a work project by providing quality workers.

Michael Lamb, VP - Industrial Operations, presented a Certificate of Appreciation at a luncheon, which acknowledged MVRCR's commitment to community and for upholding Herkimer ARC's mission to enable people to achieve their full potential and to live enriched lives.

"The Center for Refugees' mission is to help individuals to achieve independence and self-sufficiency by developing products and services that enable us to build community. The Herkimer ARC works to do the same for people with disabilities and others. Herkimer Industries needed to quickly put together a reliable, efficient, and hardworking workforce to work off site to construct over 8,000 Point of Purchase displays for a customer in Sharon Springs, NY. HI's workforce was already engaged with other jobs. The Center provided us with 20 individuals to help complete this job. Their workers were outstanding and we actually finished the project before the end date. It is wonderful to see the potential in partnerships within our community and we hope to work with the Center again."

Herkimer Industries (HI) provides contract packaging, industrial sewing solutions, package and product design services, sub-manufacturing and assembly solutions, ISO compliant quality assurance, and worldwide distribution. HI offers a full line of safety products, including law enforcement and military supplies, along with specialized LED lighting products.
